SUMMARY

Backend Developer with 1.5 years of experience in Java and Spring Boot, currently working at NAL Vietnam. Skilled in developing RESTful APIs and backend systems, with leadership experience as a Backend Lead in a technical club. Proactive learner with strong problem-solving skills.

WORK EXPERIENCE

NAL VIETNAM - BACKEND DEVELOPER (Automotive Parts Logistics System) Jan 2025 - Present

- Developed backend services for warehouse inbound processing, warehouse outbound processing and inventory movement, including data validation, normalization, and persistence of automotive parts data.
- Wrote and optimized complex SQL queries involving lock handling, transaction, multiple joins, subqueries, aggregations, and conditional logic to support warehouse workflows.
- Improved SQL performance by approximately 20–30% through query refactoring and index optimization.
- Built data export modules (Excel/CSV/TSV) with multilingual headers, timezone handling, and dynamic column mapping.
- Participated in the Spring Boot 2.x to 4.x upgrade, assisting with investigating dependency updates and compatibility fixes.
- Technologies: Java, Spring Boot, Spring Security, MySQL, RESTful API, SQL Optimization, AWS (EC2, RDS MySQL, S3, CloudWatch), Docker

NCC VIETNAM - BACKEND DEVELOPER

Jun 2024 - Dec 2024

- Built backend services for a real-time chat platform using Go, gRPC, and WebSocket.
 - Implemented WebSocket-based messaging for low-latency, real-time communication.
 - Developed message processing logic (creation, validation, broadcasting, ordering).
 - Implemented Webhook mechanisms to allow external embedded applications to receive real-time events (e.g. message creation, updates).
 - Technologies: Go, gRPC, WebSocket, Redis, FireBase, ScyllaDB, PostgreSQL
-

EDUCATION

Bachelor of Information Technology
(Program taught in English, GPA: 3.14)

Aug 2021 - Aug 2025

Hanoi University

ADDITIONAL INFORMATION

- **Technology language and framework:** Java, Javascript, Spring, SpringBoot, NodeJS, NestJS
- **Database:** MySQL, PostgreSQL
- **Other technology:** AWS(basic using and integration), Redis, Docker
- **Languages:** English, Vietnamese
- **Awards/Activities:** Backend Lead – Student Technical Club (GDSC HANU)
